

The earthquake and tsunami disaster on March 11 has caused hard consequences on the lives of thousands of Japanese people. In order to share the pain and huge loss of the Japanese, all official and staff of the National Library of Vietnam (NLV) with mutual love and affection, noble humanistic tradition of Vietnam and the spirit of the Vietnam – Japan friendship, voluntarily contributed 1 day's salary to support Japanese victims, especially to whom directly affected by the disaster. Hopefully, the small gift from the NLV will partly help them overcome tribulation and quickly stabilize their lives. Concurrently, the NLV extends deep sympathy and encouragement to library colleagues in Japan

The National Library of Vietnam's official and staff make contribution to support Japanese victims
